Seminars/courses

At the beginning of each academic year, a list of possible courses is posted on the M3ES webpage at the following address:

<http://www.m3es.unimore.it/site/home/education/courses.html>

Students will be sent a doodle link and should sign up for the courses they are interested to follow. Based on the number of students, courses will be scheduled or discarded. Therefore, we ask you to sign up only for those you really intend to attend.

A calendar with time and location of the activities will be posted at the following address:

<http://www.m3es.unimore.it/site/home/education/courses-calendar.html>

We understand the scheduling cannot be good for everyone but we need to know out of respect for the speakers if no one will be there. Please let us know if, for any reason, you cannot be present.

Research period at a foreign institution

For PhD students -XXXVI Cycle: 4 months/120days of research activities at an Institution/University abroad (outside Italy) are mandatory for each student. For CFU assignment and day counting we consider period longer than 10 days.

For PhD students – XXXV, XXXIV, XXXIII Cycles: 4 months of research activities at a “foreign” institution are mandatory for each student. “Foreign” means “no UNIMORE”, therefore it can include also research activities in other Italian Institutions and fieldwork abroad. We count every single day you spend abroad (including conferences), but we assign CFU only for periods longer than 10 days.

Specifications about the assignment of “scientific CFU” for seminars given by the PhD Student.

2 scientific CFU will be assigned only to those scientific seminars, held by the PhD student, related to his/her research projects (please specify the type of audience and the place in which you presented the seminar). All other types of seminars/lectures given by the PhD student (for example lectures for high school students) will be counted towards the maximum of 30h per year of teaching activities (Teaching assistance max 30 h: 1 CFU/10h).

Specifications about the assignment of “scientific CFU” for paper.

8 CFU will be granted at the end of the 1st and 2nd year to papers accepted for publication, at the end of the 3rd year 8CFU will be granted also to paper submitted for publication.

Annual support grant

Every year a small amount of money is given to each student for his/her research activities and travels. This sum must be spent before the next October.
